

Food Trolley Datasheet  
JUNE 2017  
FARMNOLOGY ®

Used to transport food in pig farms.  
Manufactured by Farmnology in China.  
Designed by Farmnology in Denmark.

The food trollies are fully welded with stainless steel with an inside so smooth that food will not stick to the sides, also making for easier cleaning.

Movement of the trolley is easy, as 2 universal wheels are clipped on each side. You can either push or pull the trolley with the double hand design.

Stainless steel, anti-corrosion, and a long-term investment.

#### Food Trolley - Standard

Size: 1330\*600\*580mm (250L)

#### Food Trolley - King Size

Size: 1490\*720\*690mm (420L)
